

## HP Pro 3130 Mini-tower Business PC

Performance meets expandability

Designed to meet your needs today and grow with you tomorrow. Built-in flexibility and out-of-the box productivity will take your business into the future.

Windows®. Life without Walls™. HP recommends Windows 7.

---

Add a valuable asset to your small business with the HP Pro 3130 Mini-tower Business PC. Powerful enough to handle your everyday multitasking needs with enough flexibility built-in to allow your PC to grow with you in the future. Get out-of-the-box productivity and flexibility in a modern look and feel today.

### **Impressive, intelligent performance**

Intel's latest-generation of processors and Intel® H57 Express Chipset represent the next step in faster, multi-core technology that intelligently maximizes performance to match your workload. Intel® Core™ i7, Core™ i5, and Core™ i3 processors are built on advanced technology that helps automatically apply processing power where it's needed most for enhanced multitasking.

### **Growth comes standard**

Your business needs evolve as your small business grows. You don't know exactly what you will need in future. With that in mind, the highly expandable HP Pro 3130 Mini-tower is designed to evolve with you. Available ports, slots, and bays allow you to configure your PC to meet your needs today, and then expand your capabilities when the time is right.

### **Out-of-the-box productivity**

This PC is ready to go when you are with the latest Intel® processors and chipset, a genuine Windows® 7\* operating system, dual monitor support<sup>1</sup>, a variety of optical drives, a hard drive up to 1 TB, up to 16 GB DDR3 SDRAM memory, and RAID support. And, with software like HP ProtectTools Suite, HP Power Assistant, and McAfee Total Protection Suite you get a PC equipped to make an impact right out of the box.

Build your potential with pre-qualified options like the 22-in-1 Media Card Reader, a second hard drive to utilize the RAID data mirroring capabilities, a SuperMulti LightScribe DVD Writer Drive so you can burn labels directly onto LightScribe disks, or a Blu-ray Writer Drive for even more disc storage potential.

### **Give your business a boost**

Take transfer speeds with compatible devices to a new level with an optional USB 3.0 SuperSpeed PCIe x1 card. Enhance your visual experience via graphics cards with DirectX® 11 support.

Plus, the HP Pro 3130 Series offers service and support options, so you can spend your time focusing on what's most important—your business.

---

THE COMPUTER  
IS PERSONAL  
AGAIN.

<b>Chassis Dimensions</b> (h x w x d)	15.14 x 7.27 x 16.36 in 385 x 185 x 416 mm
<b>Power</b>	300W Power Supply
<b>Limited warranty and services</b>	1-year limited warranty, terms and conditions may vary by country and region; other HP Care Pack Services <sup>10</sup> available, see <a href="http://www.hp.com/go/lookuptool">http://www.hp.com/go/lookuptool</a>

# HP Pro 3130 Mini-tower Business PC

Windows®. Life without Walls™.  
HP recommends Windows 7.

# HP Pro 3130 Mini-tower Business PC

Windows® . Life without Walls™.  
HP recommends Windows 7.

\* System may require upgraded and/or separately purchased hardware and/or a DVD drive to install the Windows 7 software and take full advantage of Windows 7 functionality. See <http://www.microsoft.com/windows/windows-7/> for details.

\*\*Windows® XP Professional is preinstalled on this system and includes end user rights and media for Genuine Windows 7 Professional. You may only use one version at a time. You must back up all data (files, photos, etc.) before uninstalling and installing operating systems to avoid loss of your data.

1. DirectX® 10 or later requires Windows Vista or later. Windows 7 will support older DirectX 9 adapters using a WDDM v1.0 (Vista) driver. DirectX 10 or later requires a WDDM v1.1 (Windows 7) compliant driver.
2. Models with Intel® quad-core processors do not include dual-monitor support.
3. 64-bit computing on Intel architecture requires a computer system with a processor, chipset, BIOS, operating system, device drivers and applications enabled for Intel® 64architecture. Processors will not operate (including 32-bit operation) without an Intel 64 architecture-enabled BIOS. Performance will vary depending on your hardware and software configurations. See [www.intel.com/info/em64t](http://www.intel.com/info/em64t) for more information. Dual Core is designed to improve performance of certain software products. Not all customers will necessarily benefit from the use of this technology. Intel's numbering is not a measurement of higher performance.
4. Intel Execute Disable Bit (DEP) provides additional protection against buffer overflow viruses. Enabling DEP in the OS requires a PC with a processor supporting DEP, Windows XP SP2 or later operating system, and that feature must be enabled in the system BIOS. Contact your application software vendor for information regarding use of the application in conjunction with XD. It is strongly recommended that users continue to use third party anti-virus software as part of their security strategy.
5. Intel HT Technology (HT) is designed to improve performance of multi-threaded software products and requires a computer system with a processor supporting HT and an HT-enabled chipset, BIOS and OS. Please contact your software provider to determine compatibility. Not all customers or software applications will benefit from the use of HT. See <http://www.intel.com/info/hyperthreading> for more information.
6. Intel® Turbo Boost technology requires a PC with a processor with Intel Turbo Boost capability. Intel Turbo Boost performance varies depending on hardware, software and overall system configuration. Check with your PC manufacturer on whether your system delivers Intel Turbo Boost technology. See [www.intel.com/technology/turboboost](http://www.intel.com/technology/turboboost) for more information.
7. For hard drives, GB = 1 billion bytes; 1 TB = 1 trillion bytes. Actual formatted capacity is less. Up to 8GB (for XP and XP Pro), up to 10 GB (for Vista), and up to 16 GB (for Windows 7) of disk space is reserved for the system recovery software.
8. Don't copy copyright-protected materials. Actual speeds may vary. Double Layer is a new technology. Double Layer media compatibility will widely vary with some home DVD players and DVD-ROM drives. Note that DVD-RAM cannot read or write to 2.6GB Single Sided/5.2 Double Sided-Version 1.0 Media. LightScribe creates a monochrome image. LightScribe media required and sold separately. Note that DVD-RAM cannot read or write to 2.6GB Single Sided/5.2 GB Double Sided – Version 1.0 media.
9. Blu-Ray is a new format containing new technologies; certain disc, digital connection, compatibility and/or performance issues may arise, and do not constitute defects in the product. Flawless playback on all systems is not guaranteed. In order for some Blu-ray titles to play, they may require a DVI or HDMI digital connection and your display may require HDCP support. HD-DVD movies cannot be played on this Desktop PC. Don't copy copyright-protected materials.
10. Service levels and response times for HP Care Packs may vary depending on geographic location. Restrictions and limitations apply. Service starts at date of hardware purchase. For details, visit [www.hp.com/go/carepack](http://www.hp.com/go/carepack).
