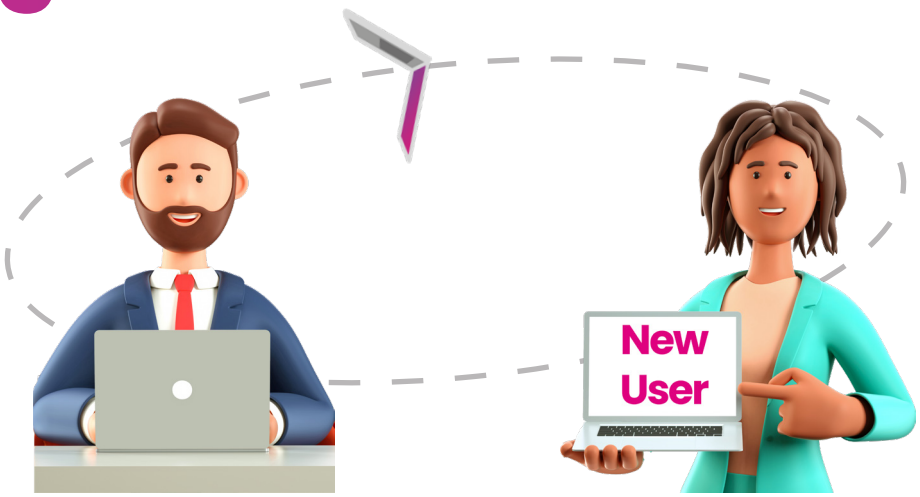
Repurpose your devices with Boomerang!

Don't be left not knowing what to do with vacant devices when employees leave. Throw the device our way and they'll be fully wiped clean and re-deployed, ready to return to the next employee.



What is Boomerang?

As employees leave or freelancers complete a project, we can help you reprocess and allocate their devices to new employees. We will collect a device from one user – whether at the office or working from home – and wipe it clean, reformat it and pre-configure its settings. We'll then ship it out to your new end-user ready to use and ready to go!

Who can use Boomerang?

Our Boomerang (lifecycle management) service is open to all devices.

Our Boomerang plan is optional for your devices when you choose one of our **Support Plans**

Additionally, the devices you wish to repurpose do not even have to be HardSoft supplied, meaning you can have access to a quick and easy courier service for any of your business devices.

We even offer our re-provisioning service on an ad-hoc basis for £115+VAT.

Add **Boomerang** from

£3.98

+VAT per month per device

What are the costs?

You can get Boomerang (Lifecycle Management) cover on all your devices for just £3.98+VAT a month per device.

Please contact your Account Manager to set up a subscription (min term 1 year).

When you're ready, give us a minimum of 24-hours' notice and we'll check over your device and ship it to the new user on a day and time to suit them.

If you are not ready to send the device back out to a new user immediately, that's no problem. We will store the device for you until you have a new user. There is no extra fee for storing a device for up to 90 days.

Preparing your device

Make sure everything's ready to go.

We recommend you back up all data on your device prior to collection. Data is not our responsibility. We will be wiping all data within 24 hours on receipt of your Device.

There is a Fee payable by you of £50 for any missed collections dates, so we appreciate your assistance in making accurate pick-up arrangements.
